Father Buckley Goes to Abilene-Financial Troubles of the Cable Road at an End-Blockaded Streets.

Special to the Gazette. Dallas, Tex., Aug. 29 .- At the massmeeting of citizens held a few nights ago, a resolution was adopted requesting the council to employ three competent hydraulic engineers to take charge of the waterworks plant and run it for a period of ten days in order to determine whether the works were now furnishing the city all the water capable. In the appointing of this committee it is more than likely that a strong opposition will be encountered. There is a clash between the waterworks

and fire departments, and many people be-the that the latter department is work-ing against the former department by not furnishing water. If this is the case, and the three engineers are put in charge of the works, the truth will come out. One thing is contain, Dallas is not obtaining the water. is certain—Dallas is not obtaining the water necessary, and something must be done speedily. The withdrawal of many insurance companies, and the advancement of in-surance rates of 50 per cent is a hardship on the entire city. The frequency of free is a hard blow upon the city. Hon. W. D. Murray Spoke at Corsteans Yesterday. Special to the Gazette.

CORSICANA, NAVABRO COUNTY, TEX., Aug. 29.—Hon. W. D. Murray, secretary of the anti-sub-treasury executive committee, addressed a large audience at the city hall this afternoon. He exposed the fallacies and exorbitant demands of the sub-trensury scheme and heaped ridicule upon Macune, Tracy, Sledge and others. The speaker insisted that the government had no power to loan money to individuals, and expounded the religible of the Domestric party at the principles of the Democratic party as enunciated by Thomas Jefferson and com-mended them to the farmers as the safest butworks of liberty and prespecity. He in-sisted that the Farmers' Alliance was not formed for political purposes, and warned the farmers against the lutriques and mathe farmers against the intrines and ma-chinations of Macune, Tracy, Surmi Ashby, and others. Mr. Murray offered as relief to the farmers instead of the sub-treasury scheme—the reduction of the tariff, the free and unlimited coinage of silver and gold, and the abolition of national banks. The speech was replete with sound argument and made a good impression. No one septied to him.

W. H. Godair, a prominent commission man of Chicago is back in the city. He was to have gone down the Rio Grande road yesterday afternoon, but met with an old friend, and the trip was postponed. It can be stated that Mr. Godair is not in Texas for his health.
Robert Kleberg, manager of King's ranch,

and N. G. Collins, a wealthy cattleman, left yesterday for Midland to see what the rain-inakers have done, and will meet them on their return from Washington. They will try to induce Gen. Dyreuforth to go to the vicinity of King's ranch. They are willing to spend some money to see what there is

in it.

It is the opinion of some prominent cattlemen in the city that the present sport in
prices was only temporary and reput
nothing. A prominent commission man
said to a GAZETTE representative yesterday
that he did not look for lasting better prices as long as Texas cattle were prohibited from going on to the Northern feeding grounds, there to be held until it suited the grounds, there to be held until it suited the boider to place them on the market. As it is at present, thousands of Texas cattle are being thrown upon the market, and it seems, he said, that by the time the quarantine limit expires for the season market-able Texas cattle would be pretty well
